

Introducing Histoderm Dermatopathology

Specialist Skin Pathology Services

The clinical diagnosis of skin lesions can be difficult. Pathological confirmation by biopsy and excision is the only option available.

Histoderm Dermatopathology is a specialised laboratory focusing exclusively on skin pathology. Our team is led by a pathologist with over 20 years experience in all aspects of clinical and anatomical histopathology, and with expertise in the sub-specialty of dermatopathology.

Specialist Skin Pathology Services

Our Aim

Our aim is to deliver a reliable and responsive service in which you can have absolute confidence in.

Personalised Service

We are committed to meeting your needs by being accessible and responsive in delivering timely and accurate diagnostic reports. We begin by learning about your practice and its requirements. This allows us to provide the service options that are important to you.

Specialist Resources

All staff at Histoderm undertake rigorous training. The NATA-accredited laboratory participates in the Quality Assurance Program of the Royal College of Pathologists of Australasia, in Dermatopathology, General Anatomical Pathology and Technical Modules.

Rapid Results

We understand doctors and patients seek timely and accurate results so treatment, if necessary, can commence as soon as possible. We can consistently deliver this because we focus exclusively on dermatopathology.

Accessible Information

Reports can be electronically downloaded, securely emailed, faxed and/or delivered in hard copy. In addition, Histoderm's pathologist is available for telephone consultations at anytime.

Bulk Billing

Services are bulk billed upon request.

Dr Gabriel Krausz

Dr Krausz's special interest is in Dermatopathology. Having handled many thousands of dermatopathology cases, Dr Krausz is a very experienced Dermatopathologist.

Dr Krausz graduated from Sydney University with a Bachelor of Medicine and Bachelor of Surgery in 1975. Following this he completed his internship and residency at The Prince of Wales and Prince Henry Hospitals before becoming a Pathology Registrar at the two hospitals. His training continued as a Pathology Registrar at The Royal Alexandra Hospital for Children and The Royal Prince Alfred Hospital. Dr Krausz also tutored in Pathology at Sydney University.

In 1982 Dr Krausz became a Fellow of the Royal College of Pathologists of Australasia (FRCPA). He is a Foreign Fellow of the American Society of Clinical Pathologists, an Associate Fellow for the College of American Pathologists and a member of the Australasian Dermatopathology Society, Australasian Division of the International Academy of Pathology and The Skin Cancer Society of Australia. He is currently an examiner in Anatomical Pathology for the RCPA.

Dr Krausz has held positions as a consultant pathologist at Endemic Pathology and Stat Pathology, as clinical pathologist and medical director at Sydney Diagnostic Services, and visiting pathologist for Ryde District Memorial Hospital, Sydney Adventist Hospital, St Luke's Hospital and Wolper Hospital.

Before joining Histoderm, Dr Krausz was the Senior Pathologist and Director of Anatomical Pathology and Cytopathology at Mansfield Pathology in Paddington, NSW.

Dr Krausz regularly attends national and international meetings and conferences for Anatomical Pathology and Dermatopathology.
