DIRECTORS' REPORT

Your directors submit the financial report of Healthscope Limited and controlled entities for the half-year ended 31 December 2008.

DIRECTORS

The names of directors in office at any time during or since the end of the half-year are:

Mr. H Kevin McCann (resigned 17 October 2008)	Ms Linda B Nicholls
Mr. Richard A F England	Mr. David Evans
Dr. Ziggy E Switkowski	Mr. Bruce R Dixon
Mr. Philip Bullock	

Directors have been in office since the start of the financial half-year to the date of this report unless otherwise stated.

OPERATING RESULTS

The consolidated operating profit attributable to the equity holders of the parent entity for the half-year, after income tax expense, amounted to \$38,420,000 (2007 - \$15,660,000).

GROUP RESULTS

The 9% improvement in the net profit after tax from continuing operations before Non-recurring Items resulted from strong revenue growth across all divisions and margin improvement particularly from the hospitals division.

Interest costs increased on last year as a result of the increased borrowing margins on re-financing the company's debt facility to June 2011.

The table below provides an analysis of the growth in EBITDA achieved in HY Dec 2008 compared with the previous year. A more detailed analysis is contained in the Review of Operations

EBITDA – Continuing Operations	HY Dec 2008 \$ Millions	HY Dec 2007 Millions	Variation %
Hospitals	91.3	79.9	14.3
Pathology	27.0	21.7	24.4
Corporate	(6.8)	(5.5)	23.6
Total-before Non-recurring Items	111.5	96.1	16.0

HEALTHSCOPE LIMITED
ACN 006 405 152
AND CONTROLLED ENTITIES

Group Results – after Non-recurring Items

The Net Profit after tax attributable to shareholders of \$38.4 million (HY Dec 2007 \$15.7 million) was impacted by a small number of NRI's, which cumulatively reduced the Group result by \$1.9 million (net of tax). These items related to business restructure costs (\$1.3 m), and failed acquisition costs (\$0.6 m).

The prior year was impacted by a number of NRI's primarily related to costs incurred in the proposed acquisition of Symbion Health (\$10.8m net of tax) and the holding costs of Healthscope's 11.9% interest in Symbion Health held under an equity swap with Goldman Sachs JBWere (\$8.3m net of tax).

DIVIDEND

An interim dividend of 10.5 cents per share will be paid on 6 April 2009 to shareholders registered on 2 March 2009. The Dividend Re-Investment Programme will be retained with shares issued under the DRP at a 2.5% discount and will be fully underwritten.

REVIEW OF OPERATIONS

A brief overview of each operating division's performance is as follows:

Hospitals

	Half-Year Dec 2008	Half-Year Dec 2007	Variation
Revenue*	\$549.0m	\$502.5 m	9.3 %
EBITDA	\$91.3m	\$79.9m	14.3 %
EBITDA Margin	16.6%	15.9%	70 bps

*Excluding prosthetics revenue of \$94.7m (HY2007 - \$83.2 m)

The hospitals business contributes approximately 78% of the Company's gross revenue and 82% of EBITDA.

The significant growth in revenue for the period was driven by a combination of growth in admissions, improved patient management and strong growth from several of the larger high acuity hospitals. Brisbane Private, Sunnybank Private, and Melbourne Private achieved double-digit revenue growth over the prior year.

EBITDA margins increased by 70bps on last year as a result of further efficiencies and volume leverage particularly from the acute hospitals. The Campbelltown Private hospital commissioned in June 2007 is performing well and with strong revenue growth in the last 6 months is achieving significantly improved margin compared to the start up phase of last year.

The management contract with the Adelaide Community Healthcare Alliance delivered a management fee of \$7.8m for the half year compared to \$5.0m for the same period last year.

The construction of the Norwest Private Hospital is running ahead of schedule and will be commissioned in the first quarter of FY10. Work is also progressing on the development of an additional level at the Campbelltown Private Hospital, which is expected to be completed in May 2009. Planning approvals have been received for developments at Knox Private, The Melbourne Clinic, Campbelltown Private and Victoria Rehabilitation Centre. Planning approval has not yet been

HEALTHSCOPE LIMITED

received for the development of Brisbane Private (Stage 1), but this project is anticipated to be completed by November 2009.

Pathology

	Half-Year Dec 2008	Half-Year Dec 2007	Variation
Revenue	\$184.9 m	\$141.6m	30.6 %
EBITDA	\$27.0m	\$21.7m	24.4 %
EBITDA Margin	14.6%	15.3%	- 70 bps
EBITDA Margin – like for like (1)	15.0%	15.3%	- 30 bps

The composition of the revenue growth of the Pathology Group is detailed in the table below:

Revenue	Half-Year Dec 2008 \$Millions	Half-Year Dec 2007 \$Millions	Variation %
Australia	132.5	115.2	15.0
New Zealand	30.2	9.1	231.9
Malaysia & Singapore	22.2	17.3	28.3
Total	184.9	141.6	30.6

The Pathology business recorded EBITDA of \$27.0 m an increase of \$5.3 m from that reported for the previous half year. The results included \$21m of revenue from the NZDG business in New Zealand which was acquired in December 2007. NZDG is a lower margin business and excluding NZDG the like for like EBITDA margin of 15.0% was 30 bps below last year.

The reduction in EBITDA margins was a result of the impact of the government fee changes introduced in July 2008, affecting margins in the Australian operations in the early months of the half. Revenue and margins were improved in the latter months of the half though an increased proportion of co-payments billed to patients.

Australian Pathology revenues increased 15%, which was significantly above market growth. Revenue growth was in line with or above market growth in all states. Growth in the NSW market was particularly strong.

The pathology operations in Malaysia and Singapore continued to deliver excellent revenue growth and margin improvements. The movement in the A\$ had a favourable impact on revenue of \$2.4 million.

The New Zealand pathology business has performed well and although the margins compared to the prior year are impacted by the acquisition of NZDG, overall margins are improving as cost efficiencies are being achieved.

In September 2008, the Court of Appeal found in favour of Healthscope owned Labtests reinstating Labtests' eight-year contract with the Auckland region's three District Health Board's (DHB's). The incumbent service provider DML, sought leave to appeal this decision. The Supreme Court denied leave to appeal in a decision announced on 12 February, 2009. The Supreme Court decision now provides certainty as to the future of the contract, and Labtests will be in a position to commence providing service in August 2009.

This contract will add approximately NZ\$70m in revenue from the first full year of operation and is for a term of 8 years.

(1) EBITDA margin like for like pathology excludes NZDG

OUTLOOK

The strong first-half result gives the Company confidence that the revenue growth experienced in both hospitals and pathology will continue in the second half. Focus will remain on gaining market share whilst maintaining margins, in both sectors. Continued strong cash generation is anticipated and the Company is on track to deliver a strong full-year result.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the independence declaration by the lead auditor under section 307C of the Corporations Act 2001 has been reproduced on page 7 of the half-year report.

ROUNDING OFF OF AMOUNTS

The Company is an entity to which ASIC Class Order 98/100 applies. Accordingly, amounts in the financial statements and Directors' Report have been rounded to the nearest thousand dollars.

Signed in accordance with a resolution of the Board of Directors, made pursuant to s.306(3) of the Corporations Act 2001.

NOTES TO THE FINANCIAL REPORT

NOTE 1: SUMMARY OF ACCOUNTING POLICIES

Statement of Compliance

This general purpose consolidated financial report for the half year ended 31 December 2008 has been prepared in accordance with Accounting Standard AASB 134: *Interim Financial Reporting*, and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS34 Interim Financial Reporting. The financial report for the half-year ended 31 December 2008 does not include all of the notes normally included in an annual financial report. Accordingly, it is recommended that this report be read in conjunction with the annual report for the financial year ended 30 June 2008 and any public announcements made by Healthscope Limited and its controlled entities ('the consolidated entity') during the half year in accordance with any continuous disclosure obligations arising under the *Corporations Act 2001*.

Basis of Preparation

The condensed consolidated financial statements have been prepared on the basis of historical costs, except for the valuation of certain non-current assets and financial instruments. Cost is based on fair values of consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The company is a company of the kind referred to in ASIC Class Order 98/010, dated 10 July 1998, and in accordance with that Class Order amounts in the directors' report and the half-year financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

The accounting policies and the methods of computation adopted in the preparation of the half year financial report are consistent with those adopted and disclosed in the company's 2008 annual report for the financial year ended 30 June 2008.

Working Capital Position

The working capital position as at 31 December 2008 for the consolidated entity results in a surplus of current liabilities over current assets of \$100.7 million.

The contributing factor to this deficiency is the accounts receivable securitisation facility of \$110 million with Westpac Banking Corporation established in the financial year ended 30 June 2007. The value of receivables sold to Westpac under this facility was \$104.6 million at 31 December 2008, an increase of \$13.5 million from 30 June 2008. The proceeds from the sale were used to retire non-current debt and reduce the overall cost of debt servicing.

The directors continually monitor the group's working capital position including forecast working capital requirements in light of the group's existing debt facility. The Company has in place committed long term financing facilities to cover the excess of current liabilities over current assets.

NOTE 4: CHANGES IN THE COMPOSITION OF THE CONSOLIDATED ENTITY

During the half-year the following changes to the consolidated entity were completed by the company.

- Acquisition of 100% of the net assets of the trading entity DSA Pathology on 26 August 2008,
- Acquisition of 100% of the net assets of the trading entity Five Dock Medical Centre on 8 September 2008 and
- Acquisition of 100% of the share capital of the Noosaville 7-Day Medical Centre on 17 November 2008.

The total consideration for these purchases was \$9,342,732. Details of the composition of the acquisitions are as follows,

	Book Value \$'000	Fair Value Adjustments \$'000	Revised Net Assets \$'000
Net assets acquired			
Cash and cash equivalents	21	-	21
Inventory	65	-	65
Trade receivables	105	-	105
Prepayments	32	-	32
Property, plant & equipment	49	-	49
Deferred tax asset	34	-	34
Trade payables	(39)	-	(39)
Employee Entitlements	(37)	-	(37)
Provisions	(13)	-	(13)
Fair value of net assets acquired	<u>217</u>	<u>-</u>	<u>217</u>
Goodwill arising on acquisition	<u>9,126</u>	<u>-</u>	<u>9,126</u>
	<u>9,343</u>	<u>-</u>	<u>9,343</u>
Consideration			
Costs on acquisition	640	-	640
Cash	<u>8,703</u>	<u>-</u>	<u>8,703</u>
Total consideration paid	<u>9,343</u>	<u>-</u>	<u>9,343</u>

The initial accounting for these acquisitions has only been provisionally determined at reporting date.

For tax purposes, the tax values of the acquired operations assets are required to be reset based on market values and other factors. At the date of finalisation of this report, the necessary market valuations and other calculations have not been finalised and the adjustment to deferred tax liabilities and goodwill noted above has therefore only been provisionally determined based on directors' best estimate of the likely tax values. The market value for tax purposes may also impact the recognised fair values of the other assets acquired as part of the business combination.

Goodwill arose in the business combination because the cost of the combination included a control premium paid to acquire these operations. In addition the consideration paid for the combination effectively included amounts in relation to the benefits of expected synergies, revenue growth, future market development and the assembled workforces of the above operations. These benefits are not recognised separately from goodwill as the future economic benefits arising from them cannot be reliably measured.

NOTE 6: EVENTS SUBSEQUENT TO BALANCE DATE

On 12 February 2009, the Supreme Court of New Zealand announced its decision to deny leave for a further appeal by Sonic Healthcare's New Zealand subsidiary, DML in relation to the three Auckland Region Health Board contracts. This will result in Healthscope's subsidiary, Labtests taking over the region's community pathology service. The contract is for a term of eight years and Labtests will be in a position to commence providing service in August 2009.

DIRECTORS' DECLARATION

The Directors of Healthscope Limited declare that:

1. The financial statements and notes, as set out on pages 8 to 15:
 - (a) comply with accounting standards and are in accordance with the Corporations Act 2001,
 - (b) give a true and fair view of the consolidated entity's financial position as at 31 December 2008 and of its performance for the half-year ended on that date.
2. In the directors' opinion there are reasonable grounds to believe the Company will be able to pay its debts as and when they become due and payable.
3. They have been given the declarations required by section 295A of the Act.

Signed in accordance with a resolution of directors made pursuant to s303(5) of the Corporations Act 2001.

On behalf of the Directors

B R Dixon
Managing Director

Dated this 18th day of February 2009, Melbourne, Victoria.

Independent Auditor's Review Report to the Members of Healthscope Limited

We have reviewed the accompanying half-year financial report of Healthscope Limited, which comprises the balance sheet as at 31 December 2008, and the income statement, cash flow statement, statement of changes in equity for the half-year ended on that date, selected explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the end of the half-year or from time to time during the half-year as set out on pages 8 to 16.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Healthscope Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Healthscope Limited is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
